

# Crossfire ZX

TENNIS STRINGS

MONOGUT® ZX HYBRID TECHNOLOGY

The Crossfire ZX family of hybrid tennis strings features a tough, durable main string combined with a soft, powerful MonoGut ZX 100% Zyex® monofilament cross string

## 1.25 / 1.22 [17 gauge] 7// b [23 feet] metres [20 feet]

## Crossfire® ZX

#### THE BENEFITS

Crossfire ZX is a 1.22/1.25mm hybrid string that combines braided Aramid/PTFE main strings for excellent abrasion resistance and string life with MonoGut ZX Pro 100% Zyex monofilament cross strings for gut-like playability and superior spin.

This hybrid combination provides exceptional soft power, crisp playability and enhanced string life for top spin players that experience frequent string breakage.

MONOGUT®ZX HYBRID TECHNOLOGY

### **Crossfire® ZX Tour**

#### THE BENEFITS

Crossfire ZX Tour is a 1.27mm hybrid string that combines MonoGut co-polymer monofilament main strings for excellent durability and a firm, powerful spin game with MonoGut ZX 100% Zyex monofilament cross strings for gut-like playability and maximum power.

This hybrid combination is designed to provide maximum power, spin and durability from a 100% monofilament string bed.
